1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.
2. The Information Disclosure Statement submitted by Applicant on December 22, 2005 has been received and fully considered.
3. The drawings are objected to because in Fig. 7, the signal "wic" should be changed to --wlc--. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.
4. Authorization for this examiner's amendment was given in a telephone interview with Mr. Eric Hyman on July 21, 2005.

5. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In claim 1, line 11, the word "the" has been changed to --a--.

In page 10, line 18, "sest30" has been changed to --sest--.

In page 10, line 21, "sest30" has been changed to --sest--.

6. The following is an examiner's statement of reasons for allowance:

The closest prior art to the present invention is the conventional word line and bit line sense amplifier admitted by Applicant in Figure 3. The conventional bit line sense amplifier in Figure 3 failed to show or suggest the limitation of the core voltage is supplied to a second control signal generator means.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
